

# Person-Centered Planning Funds are available through Hennepin County

**Planning funds are available for those who would like a person-centered plan.**

**Person centered planning** is a process to help a person determine their life goals and what's important to them and for them. The process is facilitated by certified staff who have a contract with Hennepin County. You may choose from one of the agencies contracted.

- We are focusing on transition age youth and young adults.
- Available to those who are currently not using waiver services.
- Available to those on Consumer Directed Community Support (CDCS) who have allocated all of their funds.
- Those using waiver services (DD, CAC, CADI, BI) may access person centered planning funds directly through the service [family training and counseling](#).

**To enroll please email [jerry.mellum@hennepin.us](mailto:jerry.mellum@hennepin.us) for information.**
